

Thank you for purchasing this AquaTech Lens Port. All AquaTech Sport Housings are equipped with our Thread Lock Lens Port System and particular attention should be paid to the installation and removal process listed on the rear of the document.

Please read the following instructions and care tips before using your Lens Port for the first time. You can also visit our [website](#) and [YouTube](#) channel for more tips and information.

Overview:

The AquaTech P- Series Lens Port is used with a range of Canon, Nikon and other lenses.

AquaTech Lens Ports feature a threaded system that is interchangeable with all EVO, EDGE, REFLEX and ELITE II model AquaTech Sport Housings. No tools are required to attach or remove the port. The Element is replaceable, so if damaged, please contact AquaTech for parts and instructions.

Optically Correct Acrylic Element

Mechanically Sealed, No Adhesives Used

Flat Lens Port Elements are SAR coated

Element Replaceable

Constructed from High Strength Delrin

Please read the following instructions and care tips before using your P- Series Ports for the first time. You can also visit our [website](#) and [YouTube](#) channel for more tips and information.

Initial Setup

Place the Lens Port over your Lens which should be attached to your camera and inside the Sport Housing. Align the thread and tighten your Lens Port all the way down firmly to ensure that it has an even seal with the compression seal O-Ring in your Sport Housing.

Remember to tighten your ports very tight with both hands to ensure a good seal on the front O-Ring between your Lens Port and Sport Housing. To remove your Lens Port face the front element downwards. Water can become trapped in the Lens Port Threads and, if removed facing upwards, can fall into the Sport Housing and your camera and lens. Unscrew the Lens Port and remove from Sport Housing. (Be sure not to unscrew Element Capture Ring)

Using the P- Series Lens Port Underwater

For best results please make sure you have carefully followed all initial setup instructions prior to taking your P- Series Lens Port underwater.

Safety Information and Warning

Do not exceed depths of 10m/33ft.

Do not leave your Sport Housing gear in temperatures greater than 50 C (125 F)

Maintenance and repair

With proper care your gear will last for many years. If in time you do notice any problems that come up or if there is any damage to the equipment please contact AquaTech directly at service@aquatech.net for repairs or servicing.

Limit of liability

In the event of a product warranty claim, AquaTech is only liable up to the value originally paid for the product.

Losses of associated equipment, income or any other financial costs are not covered under this warranty, under any circumstances.

Warranty - 1 year product warranty

We make every effort to ensure that our products are made from the highest quality materials and workmanship. Should you not be completely satisfied with one of our products, we encourage you to contact us so that we can promptly resolve any problem you may be experiencing. Our company representatives will deal with your issue quickly and decisively.

As many AquaTech products are often used in extreme and volatile environments, we are unable to cover for loss or damage of equipment, personal injury or financial loss.

To reduce the risk of these losses occurring, we strongly recommend you read the relevant product instructions carefully and test the product before use.

What does the warranty cover?

This warranty covers any defects in materials or workmanship, with exceptions stated below

What is not covered?

The warranty does not cover damage as the result of normal wear and tear. Determination of what constitutes normal wear and tear will be at the discretion of AquaTech service centers. The warranty guarantee only applies to the original purchaser of the product when purchased from AquaTech direct or through one of our authorized dealers. Therefore, we may ask for proof of purchase. This warranty does not cover for any loss of associated equipment such as cameras, lenses or other associated equipment not sold by AquaTech.

Loss of income, reputation or other financial expenses, such as personal injury are also not covered by this warranty. Shipping costs for returned products are the responsibility of the customer.

How long does the coverage last?

This warranty runs for 1 year from the date your product is received.

What will AquaTech do?

AquaTech will repair any defect that proves defective in materials and workmanship. If repairing is not possible, AquaTech will replace the product, or, offer a store credit for the original purchase price, whichever is agreed to by the customer and AquaTech / Retailer store.

How to get service?

Email contact@aquatech.net and we will advise where to send your product. Alternatively, you may call:

USA: + 1 714 968 6946 Australia: + 61 2 4268 3550

Returns policy - AquaTech online customers only:

AquaTech offers a 14 day return policy for new items purchased directly through our online store or at our physical store. AquaTech will only provide exchanges or store credit for change of mind or incorrectly ordered products. AquaTech will not refund any shipping and credit card costs. Please see our full return policy [here](#). The customer is responsible for shipping cost of the returned items. A restocking charge may be applied in some countries

How state law applies:

This warranty gives you specific legal rights, and you may have other rights which vary according to the state or country in which you are located.
