

Thank you for purchasing this AquaTech Pro Mount.

Overview:

The Pro Mount V4 is our most versatile Pro Mount to date. It is designed to work with all of the AquaTech Sport Housings that are equipped with either 2 or 4 inserts at the top of the Sport Housings.

The Pro Mount V4 is designed to accommodate the new LUX and SYNC Housings featuring a fast removal slot for these new additions to the AquaTech Sport Housing range. It can also support a Go Pro camera, Lume Cube lighting and other accessories that have the go pro style mounting profiles.

****It is also possible to use the AxisGO Go Mount to secure your AxisGO housing to the top of your Sport Housing using the Pro Mount V4.**

The Pro Mount V3 can be installed on the Side Handle Mount or on the top mount of all the housing models below:

EDGE

REFLEX

EVO III

Elite II

The Go Pro Hero 7 & 6/5 and Hero Session cameras require the use of an additional housing or mounting cage option supplied by Go Pro to utilise the AquaTech mount.

****Note:** This option is only available to AxisGO Housings pre AxisGO 12. AxisGO 12 Housings are not mountable to our Sport Housing range via this method.
