Create·Explore·Enjoy

AquaTech is a leader in the design and manufacture of professional photographic accessories used in action water sports. From our beginning we have focused on creating exceptional products, offering a range of lightweight and durable Sport Housing equipment and accessories.

We first began our journey in 1998 manufacturing Sport Housings for professional photographers and cinematographers and our innovative products were developed for surfing and ocean sports. Since then we have strived to continuously improve our designs and materials to offer best in class solutions for professional, enthusiast and amateur photographers.

In 2017 we released the AxisGO product line designed for the iPhone, bringing everything we've learned from our Sport Housings to develop a high-quality professional Waterproof Case for the iPhone. With our newest release AxisGO 12, we offer iPhone 12 users new possibilities to create, explore and enjoy using their smartphone cameras in the water and other extreme conditions.

Throughout the years we've listened to both professional and amateur photographers around the world to continuously improve our range and designs. This has enabled our products to become the top choice for capturing incredible images and stunning video in the water and other extreme conditions. Today AquaTech products are used by photographers in advertising, surfing, sailing, documentary filmmaking, ocean seascape art, fashion, fishing, Olympic water sports, and more.

We welcome you to explore our newest range of Sport Housings and accessories.

EDGE

Cutting EDGE

The EDGE Sports Housing is a culmination of the design principles AquaTech has been perfecting for over 20 years. Developed to meet the changing needs of photographers with mirrorless cameras, the EDGE is our most compact, advanced, and ergonomic Sport Housing we have ever produced. Featuring a completely redesigned locking clip system for improved useability and safety, the EDGE is more ergonomic than any housing before, enabling effortless shooting in either portrait or landscape modes, in all weather conditions. The EDGE is compatible with the M3 Pistol Grip, SYNC Transmitter Housing and LUX Flash Housing. No matter what you are shooting, the EDGE is an indispensable addition to your photography setup.

REFLEX

World class protection

The REFLEX Sport Housing is designed for the Canon 5D MKIV, Canon 90D, Nikon D850 as well as the medium format cameras, Hasselblad X1D II 50C and Leica SL2. It is the culmination of 20 years of design and field testing from our team at AquaTech.

The REFLEX is compatible with our range of P-Series and PD Series Lens Ports to support a vast array of lenses. In addition, the REFLEX is also compatible with the M3 Pistol Grip, LUX Flash Housing and SYNC Transmitter Housing. We've added more controls than our previous housings, giving you greater flexibility in the water. The REFLEX is equipped with 2 quick release clips with safety latches for closing and securing the housing, an ergonomic zoom control, a 1/4"-20 tripod mounting point, and two of our two-stage electronic AF shutter release buttons for effortless shooting in either portrait or landscape orientation.

EVO III

The next evolution

The EVO III Sport Housing builds on the popularity of the original EVO Sport Housing and delivers a refined design which is compatible with the entire Canon EOS-1DX range of cameras (including the 1D C). Whether it be for surf photography or fashion, shooting stills or video, the EVO III supports your workflow and lets you concentrate on getting the job done. Designed with the needs of the professional photographer in mind, the EVO III is compatible with the M3 Pistol Grip, LUX Flash Housing and SYNC Transmitter Housing.

Sport Housing accessories

AquaTech has an extensive range of accessories that expand the usage of our Sport Housings. The M3 Pistol Grip is one of our most popular accessories and dramatically improves your control and experience while shooting. The P and PD Series Lens Ports ensure that you can shoot with your favorite lens, while knowing your camera is safe and secure. AquaTech Zoom Gears allow full zoom control on all AquaTech Sport Housings, with compatible lenses. The Lux Flash Housing is a versatile lighting solution that helps you capture images that will wow clients and fans alike. The SYNC Transmitter Housing is a compact and easy to use housing that supports a range of flash transmitters. We also have more accessories such as Mounts, Goggles, Covers and Leashes, ensuring that no matter what your needs are, you are covered.
